

I am aware that Sinclair Broadcasting has decided to force their stations to air anti-Kerry programming in the form of "news". The fact this is planned so far in advance makes it clear that the programming is more accurately called propaganda.

Our democracy fundamentally depends on a well-informed voter populace. When the ownership of stations is controlled by a few companies like Sinclair, you as a government agency have a duty to your country to regulate what is falsely presented as news.

Deregulation that results in a few centralized opinions being aired is surely anti-democratic. As a patriot, I ask you to rule accordingly. Thank you.
